

Thank you very much for responding to the advertisement for the post of Lead Teacher of Computing (MPS+TLR2B) for Brighter Futures Learning Partnership Trust at our new Doncaster UTC, which opened in September 2020. I hope the enclosed details provide you with sufficient information to determine whether or not Doncaster UTC is the place you would like to continue your career.

Doncaster UTC is a government funded 13-19 years school with specialisms in Engineering and Creative & Digital Technologies. As a UTC, we offer GCSEs, A levels and Cambridge Technical subjects, with the opportunity for our students to learn valuable employability and technical skills.

Who are we looking for?

At present we are looking for a driven professional equipped with the skills and determination to make a significant difference to the lives of our students, by developing and preparing them to become skilled employees of the future.

The successful candidate will require high levels of both personal and professional commitment and be dedicated to working as part of a team, to raise attainment aspirations of the young people in Doncaster.

We are flexible on the route you have taken into teaching and are happy to consider individuals who have taken a traditional route into teaching but would also welcome people who have worked in Industry prior to transitioning into this role.

In return:

You will also be heavily involved in working with our education sponsors, which include Sheffield University and Sheffield Hallam University, who will support the development of our curriculum. Additional to working with our education partners, you will collaborate with our employer partners who include Polypipe, Pennine Stone, Agemaspark and NHS Doncaster, who will develop real-life employer projects that support contextual learning.

We also offer the opportunity to be involved in the development of this new state of the art educational facility in Doncaster. The successful candidate will have access to outstanding professional development and be given genuine opportunities to grow and develop. We are looking for someone who is ambitious for young people, has a solution focussed approach to school improvement and who is committed to improving student achievement in Engineering.

The challenge for all schools is to transform learning to prepare youngsters for twenty-first century society. We therefore need staff who are excited and enthusiastic about change and who are willing to embrace new ideas and be innovative. This post offers a terrific opportunity to a person who wants to make a real difference to the lives of young people, whilst developing themselves in a professional and personal capacity in a supportive environment where learning will be valued by all. If you are excited about the prospect of playing a key role in an organisation that seeks to provide the highest educational standards and are of a positive mind-set, then we very much look forward to hearing from you.

GARATH RAWSON
PRINCIPAL OF DONCASTER UTC
